Michigan Corruption puts United States Navy at risk?

The following business in Au Gres was closed recently this business <http://www.baycityshovel.com/> has built the steam Capulets that launches the Navy aircraft off the United States Navy aircraft carriers. They have done this for a long time (at least 40 years?)

The contractor that worked for the township that was involved in the actions that were taken on our property, possibly helped in this. He parked the same semi that was used on our property alongside the fence of this department of defense contractor property. I question if he was authorized to remove scrap and etc. Why won't he have use the gate to enter their property? Was there homeland security cameras watching this gate, and is this why he parked at a remote area of property? The semi didn't have his name or DOT number on it just like on our property. This contractor is friends with _____ of this company

There was no reason for this contractor to park his semi there. For his business drive is only two drives west of this location on US Highway 23 The owner of this business Bay City Shovels Inc. is Peter L. Kaiser He lives in the state of Ohio This DOD contractor's plant was shut down a couple of weeks ago.

Everything I'm saying above is what I personally saw or I am a witness to

(Rumored around town is one reason this owner closed his business

Is because there was tons of steel and tooling removed or stolen from said plant)

A department of defense contractor usually has machines on loan from the US government to carry out their contracts

And they have a brass tag identifying them with an id number

Are any of these machines missing?

If what I have written in the above statement is true.

And the states have refuse to investigation all the evidence that I forwarded to your office earlier. Then the state of Michigan is a party to this plants closing.

An also put the United States at risk for if a Capulet fails upon a launch of a plane it puts the plane and aircraft carrier at risk including the pilot's life's and the life's of 3,000 to 5,000 Navy Personal.

We all have a choice

To plug a small hole in corruption

Or look the other way

And it could lead to a scenario like this one we are looking at.

FOR IMMEDIATE RELEASE CONTACT: John Truscott

February 18, 1997 (517) 335-6397

Engler Praises Steinborn on 'Magnificent Career'

Governor John Engler issued the following statement upon learning that Chief Assistant Attorney General Stanley Steinborn will retire April 1:

"I would like to congratulate Stanley on his many years of public service in the Attorney General's office. During his nearly 35 years on the job, he has made great contributions to the people of Michigan and has carried out his duties without partisanship and with the utmost in professionalism. I consider myself fortunate to have worked with Stanley for a number of years as Senate Majority Leader. I admire what he has accomplished during his magnificent career and wish him well as he nears a well-earned retirement."

April 29, 1998

Stanley Steinborn, of East Lansing, is the former chief assistant attorney general. He received a Bachelor of Science degree from Michigan State University and a jurist doctorate degree from Northwestern University School of Law. He is a veteran of the Korean War. Representing the general public, Steinborn is appointed for a term expiring March 26, 2000, replacing Robert Derengoski, of East Lansing, whose term expired.

December 2004

Stanley Steinborn who served as Deputy Attorney General for most of, Frank Kelley's tenure recently died at the age of 72. Mr. Steinborn joined the Attorney General staff in 1961 and became Deputy Attorney General in 1973. He retired in 1997.

Stanley STEINBORN

Birth Date:	22 Mar 1932
Death Date:	5 Nov 2004
Social Security Number:	386-32-5026
State or Territory Where Number Was Issued:	Michigan
Death Residence Localities	
ZIP Code:	48823
Localities:	East Lansing, Ingham, Michigan

I Robert G Boensch

Strongly believe and have evidence that Mr. Steinborn's death

Was a homicide?

In 1997 after his retirement from the Michigan State attorney's office

He was involved in a car accident with his wife and one of his children

Mr. Steinborn's was a witness to some of the actions taken against me

This accident happened after Arenac County Prosecutor Jack W Scully

Was informed that he would be called to testify in a case

State of Michigan Verses Robert G Boensch

This case was heard on September 11 1997

I Robert G Boensch was found not guilty by a jury of six women

Fact

In 1993 I was brought to court in 1993 case

Gardner Dewey, Allen Yenior, *Richard E. Vollbach Jr* Jack W Scully

Sims township police and Arenac county Sheriff department was involved

(**Mr. John Seebeck** name was in the police report)

Later in the year one person died by gun shot that could been a witness in this case.

1996

I was attacked by **Mr. John Seebeck** he had a fire arm in is possession at the time

Sims township police and Arenac county Sheriff department was involved

Around this same time a second person lost their life that was in a position to be a Witness to their activities

In 1997

I was brought to court from their 1996 actions and during the course of this trial

Two more people were shot to death that possible were witness to their activates

I showed The Attorney I Hired James Shotwell some evidence

And strictly instructed him not to tell Jack Scully about this

And between the times I showed him this evidence and the date of the trial

Stanley Steinborn and his family had a terrible car accident.

During the trial Arenac County Prosecutor Jack W Scully Committed perjury on the stand so did Mr. John Seebeck and his daughter Julie

Jack W Scully had many people involved in caring out his mission

Gardner Dewey, Allen Yenior, *Richard E. Vollbach Jr* , Robert Eppert, Arenac county Sheriff and Deputes

Members of Michigan State police, Mr. Robert Ianni of the Michigan attorney's office. Charles Skiba John Seebeck and many others are involved in this

I just learned and now understand why

Jack W Scully needed to dispose of me to clear up a fraudulent real-estate Transaction he did back in 1988

In the year 2008

Jack Scully acting as 81st District Judge in a case Sims Twp. verses Robert G Boensch (**Chuck Skiba made the complaint**)

By his response and own admission testifies against himself confirming what I stated above

Also in 2010 case *Judge Richard E. Vollbach Jr* acting as 81st District Judge in a case Whitney Twp. Verses Robert G Boensch adds Further Proof by his actions that reinforces the statements I make above

First day in court *Judge Richard E. Vollbach Jr* and **Robert Eppert Whitney Township** Prosecutor

Refused to call me forward in this case and tried to give me a default judgment

They did this successfully twice before against two other Whitney property owners

One of them was in a nursing care facility this case made him loose his house and business location

Whitney township officials talked a great length and how they need to build a new water plant

This property is located right next to the water plant

It makes me Sick to think that Government and lawyers abuse their power

And go after the aged - poor – and others this way for personal and the greater public gain

Mr. John Seebeck attorney Robert Eppert threaten me with prosecution in 1993

Mr. John Seebeck attorney Robert Eppert prosecuted me in this 2010 case

And he mention several times about my Sims township property

And also had me arrested on a Sims township ticket

While he was representing Whitney Township in court and *Judge Richard E. Vollbach Jr* signed it

My wife is the co-owner of our Whitney Township Farm

And they refused to notify her of this court action and name her on the ticket

So clearly I was the sole target of the 2010 case

They tried very hard to get me to do something to defend my family and property

So they could legitimately use excessive force to murder me and my family

So we could not testify against them for their actions

Arenac County Law operates with no regard to the United States Constitution or the State of Michigan Constitution and the State of Michigan Attorney's Office seems to be no Different

The residents of Michigan all are expendable (the State Government workers will and do prevail)

Four court cases each has a common denominator

Land owners of the property Jack Scully did the deeds on

1993 Seebeck

1996 -97 Seebeck

2008 Skiba

2010 Seebeck's attorney Robert Eppert

The cases are all connected

I have the Elements and the court transcripts of the 2008 and 2010 cases

Is their going to be an investigation into all of what I have been a witness to?

How can somebody like Stanley Steinborn who gave so much service to the people of the state of Michigan not be given the time and effort to investigate his family's car accident when you have a witness coming forth with possible information about it.

One can only assume the Michigan AG office personally had some involvement in his accident it themselves.

Because I am a witness of the above, these parties tried to dispose of me and my family several times.

And ruined our plans to open a new business in Michigan

We planted about 3,000 fruit trees to open an agriculture tourism business

But who with any integrity would invite people into a county or state with such an attitude towards people

I am tired of watching the serious crimes the people in government are doing everyday

And the only recourse they want is for you to sue them

That doesn't solve these problems it just makes a few lawyers richer

And takes away from the public as a whole because it causing them added financial burden

And there is seldom criminal charges filed against them

Somebody has to stand up for the poor the elderly the weak

Or are the citizens of United States of America all expendable

And Corruption in Government will rule the day

Let's see how long my family lives after exposing these facts

Can corruption in United States destroy God?

Or will God destroy United States

God is very just if he decides its over for United States of America

Five are dead

Can further acts of corruption increase the number to 5,000 or more?

RGB

To many of our leaders in government and in business are only interested in the personal financial gain they and their close friends can plunder out of the system

With today's technology and the low cost of equipment and media there should be a federal statute that all court cases be videotaped and voice recorded and a copy handed to all the parties involved in the case within minutes of the end of each court session to avoid courtroom corruption

I pray that those in government pass such a measure

In honor of

Stanley Steinborn
And name the bill after him
RGB

Above is the real United States of America

Below is the way I wish it was

A write in for Michigan 2014 United States Senator Election
2014 State General Write-In Candidate Listing
And instructions

The issues I see facing the nation today are many
I'll try to keep things simple just like the simple web
designing you are viewing

The following is a work in progress and will change daily
and the order things are listed

May not reflect the order of importance I place on each
issue

Lack of integrity

This is a national crises found across America from our work places to our
schools and our government

We need to instill in our citizens that they own is precious commodity
It is theirs and theirs only, they are the keepers of it and it can only be
compromised by their own action

Respect

The Fathers of this great nation set up a system of government
That has no equal on this earth

They were men of great integrity had respect for each other and for the
people they served

The three system of power was to keep it's self in check

My view point of the responsibilities of the people of United States of America

And the people working in the positions United States Government federal, state and local

Are as Follows

As a citizen of the United States of America

We are to peaceably respect all the agencies of the government and the people that work in these positions

As a civil servant working in every part of government federal, state and local also the schools

These servants need to wake up every morning look into the mirror

And truthfully pray

May everything I think, do and say today

Be in the best interest of the people I serve

And this country

So that I may rightfully be earning the trust and responsibility

That the people of this Great nation has bestowed on me

We as citizens have to respect each government (position)

That was set up by our country's founders

Each person in these government positions have to earn (respect) from the citizens

It is not freely given or to be taken for granted by them

Logic

In this day of computers, complex machines and mathematics that we use in our everyday lives

We are continually reminded that if we put false data in we get false answers

Or we receive no answer at all from our question

Then we are forced to review the question asked to try to get a positive

result

It is interesting that a man made machine uses such a strict operating code

But we as an supposedly intelligent human person

Can overlook all of the false data presented before us

And make life changing decisions that affect our own life or the life of others

By using only the data that we receive from outside sources

As true answers

And if we refuse or don't take the time and effort to compare

What is going on around us to the frame of reference we have with in us

Then we openly subject ours selves and rightfully deserve the following

Truth

If you do not continually keep your own hands on the steering wheel of your life

You will find out very quickly that you're heading off in to an unknown place

And find out that others have full control of your life

Faith

We are a nation of people that has lost faith in our government

And in our fellow human beings

We need a national movement to install faith back into our country

Corruption

There's so much corruption every were in this country

In government, in business and being committed by private citizens

With the way things are it is hard to find refuge to escape it

Also when one is a witness to a crime or suspects a crime has taken place

If one reports it, one has to be fully aware

That they're putting themselves at risk in doing so

Because the person or agency they're reporting it to

Could be highly involved in protecting the same criminal activity

We need to be brave and tackle this plague

And have leaders that are strong and transparent in dealing with this issue

Energy and transportation

We need to look at our National Transportation and energy distribution network

**The oil pipe lines across this nation are long and
Crisscross it from shore to shore and border to border**

**Oil in its crude state travels sometimes thousands of miles to a refinery
Only to be processed and then be pumped into a different line or loaded on
a truck, train or waterway**

Only to find its way back close to where it originated at

**In doing so it has put people and the nation's infrastructure and also the
environment at risk**

**And also taxes it and wears out the current pipelines and the national
highway and waterway systems**

**And creates the need to build new highways and pipelines and adds to the
cost of the end products**

Case in point we should build new refineries close to the new oil fields

Being developed in the northern states and Canada

Because

**The cost of pumping refined oil products is far cheaper than heavy raw
products**

And most of our existing old pipelines are being

Seriously over stressed by transporting heavy oil sands product

And the rail systems and waterways also are being over taxed

Also

**The nation's farmers would benefit by being able to receive more for their
crops and better able**

To compete in foreign countries and not be burden by the cost

And delay in building or improving our rail - waterway and highways

Health Care

I'm no expert in this field

But I understand from my days in farming

When things change by the weather or by intentional occurrences

You have to move forward

And my view point in the case of United States Health care
We as a nation do not have the time or the monetary resources to spend
Debating the change we have just seen taken place
We need to look at the problem
And compare the way insurance used to be to the way it is now
And start on a clean sheet that puts equal health care in everybody's hands
with minimal paper work
And at no charge or billing to the people
This can be done very quickly
I have a plan
The people should be able to choose

Jobs

There are many very talented people unemployed in this nation that will
never get a chance
There are also a lot of people that have jobs that are not deserving of
having one
If one fails in his or her job "commits a high crime then that person should
be bared for life
Of ever having a job in that or a related field in which it happened
Including people in government or any other place of employment
We should all be conscious of this fact "remember integrity above"

The Equal American

There should be and must be equality nationwide in all aspects of our
country
Equality Implemented period
Health - Education - Wages – Employment
For man or woman

To those in Government

Job compensation in government
When we accept a job we must accept the monetary wage agreed upon for
that job
If we work for the people a (Government Job) There should be no bonuses

And all bonuses plans in place should be discontinued
Government employees
If you accepted a job or have willing been elected
To any government position
I question that if in the course of their job
If they are ever asked to testify about actions that they have taken
And they refuse to answer
That this refusal to answer be a condition for immediately discharge
From their job and also the termination and any and all
Retirement period

We are one Nation
If we stay divided in Washington
We will be defeated by our own actions or lack of there of
The time is now to change our direction
We need a one Nation policy
In Washington
Governing our states
Any state that want's
To be above another
Will be a party to
Us all loosing

First

The game has to change
Start by putting together micro bill's addressing the most
Crucial issues facing this nation
And have them voted on in a timely manner

Second

Instead of relying on outside opinions' on what needs to be done

Have each member of congress take ownership

And all the liabilities that go with it on the issues there in charge with

And the bills they sponsors

Third

Put a national moratorium on lobbyist activities

With ties to any government projects

Until there is stabilizing in the United States Government

Fourth

We need to go back and review some Governmental polices

Those were implemented to quickly

They were possibly lobbied on with no track record of succeeding

More to be added

I am

Robert G Boensch

Independent

Running as a write in

For the open Michigan United States Senator position

And I approve this message

Boensch4US.com

As an independent not funded by any outside money

**The only people that can and will influence me if I'm
elected**

Will Be

You

If this happens you will be inspiring other

People all across this great nation

To come forward and change

America

**There are many citizens out there far more qualified
than I am**

You can Show them the way by electing me

**They will then gain courage and step forward in the
next election**

**Where it will really be a defining time in United States
History**

Know that Integrity trumps Money every time

Let's make the change

God's

4 p's

We must act with

Peace

Patience

Perseverance

Following this will

Lead our country

Back To

Prosperity

**The picture above is a rainbow shining down on
where we live and our orchard**

There is hope at the end of the rainbow
